Hung around all morning and finally left for Topseesco, about 20 miles. Rode all the way in a wagon and my rear was really tired. This is a pretty nice place. Had Steak and Potatoes for supper.

On my way again to Glina (13 km), arrived and had dinner of Ham and eggs, potatoes, lettuce and soup. Was very good. The lady who prepared it had been in the U.S. and spoke very good English.

Bought some cigars and cookies in Glina but still unable to find a toothbrush. Went to another place where I am now and am afraid will have to stay here on account of fighting along the way.

Was sitting at the dinner table and heard a lot of U.S. airplanes coming over. They were B-17\* and B-24\*. One B-17 was low and having trouble. All the boys bailed out and two of them are with us at this place.

We moved yesterday about 7 Km. Started out by motorcycle and ran out of gas so had to walk the rest of the way. Had some good meals and hope to move a little farther today. May be trouble ahead.
