

May 20

Saturday and very dull. Have been in the woods most of the day waiting for the German planes but they haven't been here as yet. It is now 4:30 and they generally have made one visit by this time. Maybe they will leave us alone today. Have a slight infection on one of my knuckles from the day of the crash. It is OK. Sure would like to have some good food and candy.

Later - I was wrong. One German plane came and bombed about 2 miles from here.

May 21

Had to get up this morning because one plane came around but didn't bomb. It was time to get up anyhow. Didn't feel so good, had a mild case of the G.I.'s* Ate eggs for breakfast and got news that we were to leave today but just now found out that we are scheduled to leave in the morning. I am ready to go because I have been here since May 12.

It rained quite hard this morning and I went back to the sack and would do the same this afternoon if I was sure the German planes wouldn't come.

*G.I.'s - diarrhea
